Roundtable Discussion on Housing and Immigration with Deputy Minister Christiane Fox

CHBA CEO Kevin Lee was invited to a roundtable discussion on housing and immigration by federal Housing Minister Ahmed Hussen and Deputy Minister of Immigration Christiane Fox. Lee reminded the minister and deputy minister of the importance of immigration to the long-term health of the Canadian housing market and residential construction. CHBA has been actively and successfully advocating for changes to the immigration system, with changes forthcoming that should better support the residential construction sector. It is, at the same time, critical that housing supply increases to ensure there is enough housing for new Canadians – which will then help with affordability.
